Contents

Üğur Değer: On approximation to functions in the $W(L^p, \xi(t))$ class by a new matrix mean ................................................................. 1–14
QingShun Zhu: Semilattices of nil-extensions of simple left (right) $\pi$-regular ordered semigroups ............................................................... 27–34
Günay Öztürk, Kadri Arslan: On focal curves in Euclidean $n$-space $\mathbb{R}^n$ ............... 35–44
Buddhadev Pal, Arindam Bhattacharyya: On nearly quasi-Einstein warped products .......................................................... 45–51
Abhijit Banerjee, Goutam Haldar: Uniqueness of meromorphic solution of a non-linear differential equation ............................................. 53–62
Absos Ali Shaikh, Shyamal Kumar Hui: On $\phi$-symmetric LP-Sasakian manifolds admitting semi-symmetric metric connection ........................................ 63–78
Yuji Liu, Xiaohui Yang: Existence and non-existence of positive solutions of four-point BVPs for second order ordinary differential equations on whole line ...... 79–103
U.C. De, Krishanu Mandal: On $K$-contact Einstein manifolds ......................................... 105–114
Ali Uçum, Hatice Altin Erdem and Kazım İlarslan: Inextensible flows of partially null and pseudo null curves in semi-Euclidean 4-space with index 2 .......... 115–129
M.Haripriya, R.B.Sharma, T.Ram Reddy: $k^{th}$ root transformations for some subclasses of alpha convex functions defined through convolution .......... 131–146
S.S. Shukla and Akhilesh Yadav: Screen pseudo-slant lightlike submanifolds of indefinite Kaehler manifolds ............................................. 147–158
Milica Grbović and Emilija Neović: On generalized partially null Mannheim curves in Minkowski space-time ........................................ 159–170
Deepika, Ram Shankar Gupta: Lorentz Hypersurfaces satisfying $\Delta \tilde{H} = \alpha \tilde{H}$ with complex eigen values ........................................... 171–180
Hristo Manev: Hyperspheres in real pseudo-Riemannian 4-spaces with almost contact B-metric structures ........................................... 181–189
Elena Popovici: The CR-geometry of the complex indicatrix ......................... 191–205
M. Iranmanesh, F.Soleimany: Some results on farthest points .......... 207–215
B. B. Chaturvedi, Pankaj Pandey: Conformal transformation in an almost Hermitian manifold ................................................. 217–226
Tijana Levajković, Stevan Pilipović and Dora Seleši: Corrigendum and addendum to ”Chaos expansion methods in Malliavin calculus: A survey of recent results” ........ 227
