

## Contents

### **Samiran Das, Argha Ghosh:**

$\mathcal{I}$ -statistical limit points and  $\mathcal{I}$ -statistical cluster points  
in probabilistic normed spaces ..... 1–16

### **Preeti Dharmarha, Sonu Ram:**

A note on  $(m, n)^*$ -paranormal operators ..... 17–26

### **A. Zivari-Kazempour:**

Some properties of almost Jordan homomorphisms on Fréchet algebras ... 27–37

### **Fabiana Çullhaj, Anjeza Krakulli:**

Some characterizations of regularity and intra-regularity of  $\Gamma$ -semigroups  
by means of quasi-ideals ..... 39–46

### **Godwin Chidi Ugwunnadi:**

General iterative methods for common fixed points  
of asymptotically nonexpansive mappings ..... 47–74

### **Oğuzhan Bahadır, Majid Ali Choudhary, Shashikant Pandey:**

$LP$ -Sasakian manifolds with generalized symmetric metric connection ... 75–87

### **Kanak Kanti Baishya, Manoj Ray Bakshi, Ashis Biswas:**

On generalized weakly (Ricci)  $\phi$ -symmetric  
Lorentzian Para Sasakian manifold ..... 89–105

### **Christophe Chesneau, José Luis Palacios:**

A note on a generalization of an infinite decomposability result ..... 107–113

### **Masoumeh Cheraghi, Hamid Faraji:**

On Huang, Jaggi-Das, Khan and Abbas type results in the context  
of  $\mathcal{F}$ -metric spaces and applications to integral equations ..... 115–125

### **Victor Dévoué:**

Study of nonlinear stochastic Cauchy problems in  $(\mathcal{C}, \mathcal{E}, \mathcal{P})$ -algebras ... 127–140

### **Silvestru Sever Dragomir:**

On some inequalities for double and path integrals on general domains 141–154

### **H. A. Agwa, H. M. Arafa,**

### **G. E. Chatzarakis, M. A. Abdel Naby:**

Oscillation results for second-order mixed neutral integro-dynamic  
equations with damping and a nonpositive neutral term on time scales 155–173

### **Mancho Manev, Veselina Tavkova:**

Hyperspheres in Euclidean and Minkowski 4-spaces as almost  
paracontact almost paracomplex Riemannian manifolds ..... 175–185
